SUMMARY

AWS Certified DevOps Engineer – Professional with 5+ years in IT, moving from IT support and system administration into software engineering and DevOps. I focus on AWS cloud infrastructure, Kubernetes and observability with Grafana, Loki and Prometheus, and I use Terraform to manage infrastructure as code.

EXPERIENCE

DevOps Engineer · EasyEquities — Jul 2025 – Present

- Build and support AWS cloud infrastructure and delivery pipelines for EasyEquities' investing platform. Remote, Philippines.
- Work on container platforms, CI/CD and observability for production services.

Software Engineer · Accenture in the Philippines — Mar 2025 – Jul 2025

- Built logging and monitoring with Grafana Loki and Prometheus.

Associate Software Engineer · Accenture in the Philippines — Jan 2023 – Feb 2025

- Worked on Kubernetes-based workloads and Grafana dashboards for platform monitoring.

IT Support · Southern Luzon State University — Feb 2021 – Dec 2022

- Provided IT support and network and system administration for the university's hybrid cloud environment.
- Administered Sangfor HCI and Windows Server 2012 R2 infrastructure.

SELECTED PROJECTS

Grafana Observability Stack on AWS ECS
Terraform deployment of Grafana, Prometheus, Loki and Grafana Alloy on ECS Fargate, with an ALB, Cloud Map service discovery, EFS-backed configs, ECR, S3 and IAM.

Terraform · AWS ECS / ECR / S3 / EFS / ALB · Grafana · Loki · Prometheus · Alloy

DevOps Roadmap Basics (one-day seminar)
Beginner workshop I created: Git · Docker · GitHub Actions · Terraform · Grafana, in Codespaces

IoT Counter Fluctuation Control for Power Distribution (Thesis)
IoT monitoring dashboard hosted on an Azure VM.

Node-RED · Python · MySQL · Azure VM / NSG

E-PR Procurement Tracker Portal (Capstone)
PHP web portal deployed on AWS with a load-balanced EC2 web server, a custom domain and TLS.

PHP · MySQL · AWS EC2 / ELB / Route 53 / ACM

CERTIFICATIONS

AWS Certified DevOps Engineer – Professional
AWS · May 2025 – May 2028

AWS Certified SysOps Administrator – Associate
AWS · May 2026 – May 2028

AWS Certified Developer – Associate
AWS · May 2026 – May 2028

AWS Certified Cloud Practitioner
AWS

HashiCorp Certified: Terraform Associate (003)
HashiCorp · Jun 2024 (expired)

SKILLS

Cloud
AWS · EC2 · ECS · S3 · IAM · Route 53 · ALB · Azure

DevOps & IaC
CI/CD · Terraform · Docker · Kubernetes

Observability
Grafana · Loki · Prometheus · Alloy

Infrastructure
Network Admin · System Admin · Windows Server · Sangfor HCI

Development
Python · Bash · MySQL · HTML/CSS/JS · PHP

EDUCATION

Bachelor of Industrial Technology
Major in Computer Technology
